An effective method for figuring out a price is to send out a survey to your current customers. If these clients have already purchased an book from you, ask for his or her opinion by way of price. Do this by creating a gross sales web page for the new e book, but do not embody a price on that page. Instead, add a number of links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another technique is to test out costs by making a number of duplicate sales pages with different costs on each page. Make sure your gross sales copy is precisely the same on each page, and consists of your selling-deal with sentence. Then figure out for every web page the conversion ratio between guests to your website and sales of your book. It will let you know what your optimum worth is.

In the end, if you happen toâ€™ve written a ebook that solves a problem or presents a new technique, your e book will herald both traffic and profits.
